McGAUGHEY PROVES HIMSELF HERO

Jumps On Wild Car Containing Two Babies and Guides It Safely Down Summit

Friends of S. J. McGaughey, well known Richmond photographer, are claiming that he is well worthy of a Carnegie hero medal as a result of his quick wit and nerve displayed Sunday morning when he undoubtedly saved the two little daughters of County Road Engineer J. G. Baxter from serious injury, if not death.

The little girls, Dorothy and Edith June, aged two and three years, respectively, wandered out of the home of their parents on the "Summit," and climbed into their father's big Hudson touring car which was parked in front of the house. They climbed on the front seat and in some way happened to loosen the brake.

Now the Baxter home is situated near the top of Summit street hill, and unless a car is securely braked, a slight push or most any thing is going to send it coasting down the steep 200 or 300 yard hill with disastrous results below.

The releasing of the brakes by the two babies seems to have given the car the needed impetus. It began to move downward with the little ones innocent of their terrible danger.

Dr. R. C. Boggs was sitting on his porch as the car began to go down hill, gaining momentum as it went. He saw he could not possibly reach it in time. But out of the corner of his eye as he gazed, almost horror-stricken at the plight of the two babies, he noticed Mr. McGaughey in his side yard. Mr. Boggs let out a yell that got McGaughey's attention instantly and he turned and saw the car coming down the hill by his home.

The heavy machine was beginning to pick up speed as the steeper portion of the hill was being reached. The little tots sat laughing in glee at their nice "ride."

McGaughey wasted no time, but dashed for the street. He got there just as the machine came whizzing by. A leap and he was on the running board. He grabbed a rod with one hand and with the other caught the steering wheel, which was beginning to wobble in the mad flight. The popular photographer kept well his nerve. It seemed a case of life or death. Straight ahead and the car would plunge over a 25 foot embankment at the foot of the hill. The street curves to the right, and McGaughey skillfully guided the now wildly running machine, as it went on heading down Summit street. Luckily nothing barred the way as the car swung the curve under his safely guiding hand. He managed to get a leg over the door, and to catch the emergency brake. The foot of the hill was reached and the car brought to a stop in front of the home of W. E. Luxon with the babies safe and sound and no damage done.

HOOVER HAS BEEN WORKING ON STRIKE

(By Associated Press)

Washington, June 7—Secretary Hoover in a report to the Senate today disclosed he and Secretary Davis sought to present his recent suggestions that he hoped would settle the existing coal strike, but so far his efforts were without results. The commerce secretary's statement, which is the first disclosure that the government has sought to intervene in the struggle between the operators and union miners, was contained in response to a recent senate resolution calling for information concerning the coal situation.

Hoover's report said: "Quite informally and repeatedly suggestions as to the propositions on which the disputants might well confer with hopes for a settlement have been made through the Department of Labor and this department, but thus far the suggestions are without result."

SAYS NEW SENATOR NOT HARDING'S KIND

(By Associated Press)

Washington, June 7—The nomination by Iowa republicans of Smith W. Breckhart, as that party's candidate for United States Senator was declared by Chairman Hull of the democratic national committee, in a statement today, to be an even more emphatic repudiation of Harding's administration and the republican congress than the votes for Beveridge in Indiana and Finch in Pennsylvania. He asserted that Harding had declared the Esch-Cummings act to be the greatest piece of railroad legislation ever passed and that Breckhart ran on a platform which pledged to repeal that act. Moreover, he said Breckhart's platform is progressive to a point of radicalism and included endorsement of the farmers' bloc, which Harding opposed.

It Won't Be Here

The United States flag, which has been flying over the building since it was erected, will be taken down today. The flag was hoisted here when the building was first occupied by the United States government. It was the first flag to fly over the building since it was erected. The flag was taken down today because the building is no longer a government building. It is now a private building. here to attend a circus and by hundreds who caught the court case to hear the trial of Clay. He was charged with the killing of his father, his father's enemy.

As usual, after the smoke of battle had cleared away, the officers got busy. Everyone seemed to be a walking arsenal. Pistols were as numerous as hats and coats. If the officers had not been so busy, they would have searched the men before the fight. Why the pistol battle would never have taken place, Pine would have been relieved of the disgrace and the responsibility of the first amount of cartridges required to prosecute the slaying. The dead would still be hanging from the gallows, and the wounded would be in the hospital and free to labor for their family and country.

At last it was better. Yes, much better if the officers would have a "little" longer eye for the pistol toter?

The Ohio State Journal, prominent republican newspaper, has offered \$25,000 in gold for every person who can furnish information regarding the whereabouts of the late General Harry Campbell, who was killed in the battle of the Marston. ROTARIANS PAY DEBT ON WAR HERO'S FARM

Chattanooga, Tenn., June 7.—A big load is off the mind of Sergt. Alvin York, the Tennessee mountaineer, whose exploits in the Argonne, where he captured single-handed a battalion of German infantry, brought him the title of "the greatest hero of the World War," from Marshall Ford.

The deed to his late 400-acre farm on Wolf river, Benton county, near Fall Lake, was presented to him today. It came to him every penny paid for. The presentation was made by J. A. Leeder, a trustee of the York fund.

When York returned to America in 1919 he refused all offers to appear on the stage or in the movies and continued to live in his home on the farm. He was a man of few words and a great deal of character. He was a man of few words and a great deal of character.

When he arrived in Tennessee the Nashville Rotarians started a subscription to pay for a farm for him. They raised several thousand dollars and bought the farm. The farm was a 400-acre farm on Wolf river. The farm was a 400-acre farm on Wolf river.

The drought of 1921 left the farm crop and the house destroyed. The farm was a 400-acre farm on Wolf river. The farm was a 400-acre farm on Wolf river.

The Nashville Rotarians again became active and money was raised, not only to pay the first installment, but to clear off the entire indebtedness. The deed presented to the Sergeant recited, in addition to the usual land description, the citations York had received for his Argonne valor, which included the Congressional Medal of Honor and the Cross de Guerre.

Mexican Quail Arrive in Largest Numbers Since 1910

Between January 23 and April 23, the closing date for the season of entry of Mexican quail, 37,953 quail were entered at the ports in Texas. This is the largest number since 1910. Of these 9,773 were entered at Brownsville; 15,408 at Laredo; and 12,772 at Eagle Pass. The Bureau of Biological Survey of the United States Department of Agriculture reports that most of these birds were shipped to Kentucky, Maryland and Pennsylvania and distributed through the game commissions for propagating purposes.

Pineville Fishermen Out of Luck

(By Associated Press) Frankfort, Ky., June 7.—The Fern Lake Outing Club of Pineville, expected to have some good fishing this fall with new lights and brim brought to the club lake by the Kentucky Game and Fish Commission. But it was not to be. The commission seized 2000 of the game little fish out of the reservoirs at Lexington. They were placed in a pool near the caretaker's home. A locked screen was placed over the pool. Some one tore off the screen, stole most of the fish, and shut off the water. The remaining fish died. Therefore no fish for the Fern Lake club.

"Your Engine Is In Fine Condition"

This is the usual report after an inspection of a motor that throughout all of its service-life has been kept properly lubricated with the right amount and the right "body" of motor oil. Stanocola Polarine possesses lots of that very important property of a true lubricant—that is, "oiliness." It reduces frictional wear, forms a perfect piston ring seal under all conditions of clearance, temperature, speed and load; prevents excessive carbon deposits, gasoline waste and dilution of oil in your crank case. To keep your car from a premature old age, put no motor oil in it but

Not two months ago, Katherine MacDonald, screen beauty, who will be seen in "Stranger Than Fiction," at local theatres today, needed a guide to escort her safely around her own studio. The reason was that in "Stranger Than Fiction," the script calls for a "set," which in studio language, means an arrangement of scenery, to represent the headquarters and secret hiding place of a gang of metropolitan crooks. There were so many secret passages, doors and

sliding panels that the American Beauty was continually wondering just where the passages were leading her.

Pimples Keep Young Men Down!

They Make Women, Too, a Puzzle!
How S. S. S. Stops Skin Eruptions Positively.

Pimples and skin eruptions have a price—you pay for every pimple, black-head and pimple on your face. Pimples produce pus and prevent prosperity. Your heart may be gold,

S. S. S. Will Rid You of the Crushing Pimple-Culinary.

But who wants to kiss eruptions? Pimple men don't look like the owners of anything. Pimple women, too, are puzzles, with no prospects and no power. Young men and women, here's the positive way out. Physics and purgatives will fail. What you need is a scientific blood-cleanser. S. S. S. is one of the most powerful destroyers of blood impurities. You can prove this in a short time. S. S. S. has been passed on by a jury of millions of people just like yourself. It is considered one of the most powerful vegetable blood-purifiers and flesh-builders in existence. That's why you hear of so many underweight people putting on lost flesh in a hurry, why you hear of so many rheumatics being freed from their scourge with S. S. S. Start today with S. S. S. and see your face clear and your skin get ruddy, your flesh firmer. It will give you a boost in your career. S. S. S. is sold at all drug stores, in two sizes. The larger size is the more economical.

The wedding will take place June 24. The bride-elect is quite popular, having frequently visited here.

Seniors Honored by Juniors

The Junior class was host to the Seniors of E. K. S. N. S. Saturday evening, June 3. The scene of the occasion was the play room of the Training school. The class colors, old rose and silver, formed the decoration. The "Dorothy Perkins" roses against the gray stone of the wall, with the addition of garlands of crepe paper over shaded lights, formed an ideal setting for an evening of merriment. An orchestra furnished music throughout the evening and the hours passed quickly in games and conversation. About 240 students and faculty members enjoyed the occasion.

HENRY SPENCER, well known and respected citizen of Watertown, N. Y., who reports he has gained 15 pounds since he began taking Tanlac and always tells his friends how this medicine restored his health.

"My friends often say: 'Never saw you looking better; what are you doing for yourself?' and I always tell them: 'Well, I am taking Tanlac now.' recently declared Henry Spencer, 415 East St. Watertown, a well known and highly respected citizen.

"For more than a year," he said, "I seemed to be run down all over. From 160 pounds I fell off to 135. I lost my appetite and my stomach gave me no end of trouble. The little I ate caused me to bloat with gas and I was subject to dull, heavy headaches. I had no energy and it was all I could do to get around the house. I had dizzy spells when everything would blur before my eyes and I had to catch myself to keep from falling.

"Well, now, I have gained 15 pounds, feel better in every way, and can work as well as ever, since taking Tanlac. I relish what I eat, with a fine appetite, and gas, indigestion, headache and dizziness are completely gone. Yes, sir, I just can't say too much for Tanlac."

Tanlac is sold by all good druggists.

GOVERNOR SPIKES POOL FOES' GUNS

Lexington, Ky., June 7—Answering propaganda being circulated, not only in the bright belt of the Carolinas and Virginia, but in the dark district of Kentucky and Tennessee, Governor Morrow Monday in writing a reply to a North Carolina business man seeking information on the workings of the Burley Tobacco Growers' Co-operative Marketing Association, a copy of which letter has been received by the association headquarters here, said that the Burley Association has:

"Given entire satisfaction to its 60,000 members;

"Handled the crop delivered to it economically;

"Advanced to growers money at a liberal value;

"Established credit with banks and the United States War Finance Corporation;

"And," the Governor added, "the farmers of Kentucky would not go back to the old system of marketing under any circumstances."

Returning from North Carolina Monday, Charles E. Marvin, of Payne's Depot, said that Aaron Sapiro had 15,000 growers at five meetings there.

Word received here indicates that growers of Massachusetts will be followed by those of Connecticut and Wisconsin in organizing co-operative associations.

\$15,000 Damage Suit Is On In Jessamine

Nicholasville, Ky., June 7—The \$15,000 damage suit of H. C. Nichols against Rufus Lisle, Jessamine farmer, was called in circuit court here Tuesday. The case grew out of an automobile accident on the Versailles road in October, 1920, when a machine driven by Mr. Lisle, collided with the automobile of the plaintiff. Mr. Nichols suffered serious injuries and was taken to a hospital in Lexington where he underwent several operations and later had his hand amputated. This is the second trial of the case, the jury failing to agree in the first. Judge E. H. Hoover is attorney for the plaintiff and J. H. Welch and N. H. Bronaugh for the defense.

Jailer Frustrates Plan Of Desperate Prisoner

LaGrange, Ky., June 7—Robert Latimer, jailer, is in a serious condition as a result of burns over his face and shoulders, inflicted by carbolic acid thrown into his face by Clifford Lee, a prisoner, in an effort to overpower him and make his escape. Latimer was setting things in order in the jail before locking up for the night when Lee threw a wash basin containing perhaps a half pint of the acid into Latimer's face. Latimer reeled and cried for help, but retained his consciousness long enough to hit the prisoner over the head with a club. Lee staggered to the door, but had not gotten ten feet beyond it when he was captured by Edward Thomas, a negro trusty of the jail, who held him until a crowd gathered.

The Independent Woman

is one of the brightest jewels which adorns our modern, economic system. But too often this independence is gained at the cost of health, and the wage-earning woman struggles through her duties, a prey to nervousness, backache and despondency. Does not her independence then become more of a burden than a joy? Lydia E. Pinkham's Vegetable Compound has helped many such women to regain their zest in life, and well help many more.
